

Traditional Food Network to improve the transfer of knowledge for innovation

# **Improving fish feed and feeding techniques, fish processing, labelling and marketing with fish products**

## **1<sup>st</sup> – 2<sup>nd</sup> February 2016**

Vodňany, Czech republic

International Environmental Educational, Advisory and Information Center of Water Protection Vodňany (MEVPIS)

Na Valše 207, 389 01 Vodňany

The expert seminar is intended for Czech fisherman, processors and marketers with fish and fish products. During the seminar the academic and research workers will present current research findings in the field of fish feed, fish processing and marketing and will answer questions about this issue. Furthermore, the excursions to the market Makro with exhibition of “Big fish filleting” and to the processing facilities of the Institute of Aquaculture and Protection of Waters FFPW USB in České Budějovice will be organized. The seminar is primarily held in Czech language. Presentations of foreign speakers will be translated into Czech language.
